SMART HANDLE LOCK / PRODUCT REFERENCE

Retesz Axis

A streamlined lever with the keypad integrated into the handle.

Retesz-branded product visualization · not a photographed branded sample

Finishes	Black / Silver
Door thickness	35–65 mm
Body material	Aluminium alloy
Latch / mortise	60/70 single latch
Power	4 AA alkaline batteries
App variants	TTLock / Tuya
Connectivity	Bluetooth; remote requirements not confirmed
Entry methods	Fingerprint, Passcode, IC card, Mechanical key, App, NFC

Final app configuration, remote requirements and voice integrations require confirmation. Only Black and Silver are offered for specification. TTLock version / single-latch version available as configuration options; final door compatibility review required. TTLock and single-latch versions are available configuration options on Retesz Axis, Arc, Line and Edge, not standard on every unit. US wooden-door suitability requires final verification of dimensions, handing, backset, door thickness, latch preparation and compliance. No UL, ANSI or BHMA certification is claimed.
